2018 - 2019    Sonbhadra

### PROJECTS

#### Hostel Management System

Lucknow, India

https://hostel-admin-frontend.vercel.app/

A full-stack **Hostel Management System** built using **React (TypeScript + Redux Toolkit)**, **Node.js**, **Express**, and **MongoDB**. The system includes separate dashboards for **Admin**, **Warden**, and **Students**, providing a smooth and scalable solution for hostel operations.

- Developed a **role-based dashboard system** (Admin, Warden, Student) with secure authentication and authorization..
- Built **Admin dashboard** for managing rooms, wardens, and student allocations with complete CRUD functionality.
- Integrated **Redux Toolkit** for state management, ensuring seamless data flow and scalability.

#### Online Food Delivery Platforms

Lucknow, India

https://food-delivery-user-gold.vercel.app/

Full-stack Online Food Delivery Platform using React (TS + Redux Toolkit), Node.js, Express, and MongoDB with role-based dashboards (User, Admin, Restaurant) for seamless food ordering and management.

- Developed a **multi-role dashboard system** (User, Admin, Restaurant) with secure authentication and authorization.

#### E-Commerce Website

Lucknow, India

https://ecommerce-website-rho-lake.vercel.app/

Fully responsive e-commerce platform with advanced product features and dynamic animation

- Developed a modern, fully responsive e-commerce interface with product listings, filtering, search, add-to-cart, wishlist, and user authentication features.
- Designed using React, TypeScript, and Tailwind CSS, with state management via Redux Toolkit/Context API
- Enhanced the user experience with advanced animations using Framer Motion and GSAP

### SKILLS

#### Development

HTML5

CSS3
