📅 2008 - 2009    📍 Palo Alto, CA

### High School
**UP-BOARD**
📅 2018 - 2019    📍 Sonbhadra

### Higher Secondary
**UP-BOARD**
📅 2020 - 2021    📍 Sonbhadra

## PROJECTS

### E-Commerce Website
📍 Lucknow, India
🔗 https://ecommerce-website-rho-lake.vercel.app/

Fully responsive e-commerce platform with advanced product features and dynamic animation

- Developed a modern, fully responsive e-commerce interface with product listings, filtering, search, add-to-cart, wishlist, and user authentication features.
- Designed using React, TypeScript, and Tailwind CSS, with state management via Redux Toolkit/Context API
- Enhanced the user experience with advanced animations using Framer Motion and GSAP.

### Hostel Booking WebApp
📍 Lucknow, India
🔗 https://hostel-booking-web-app-2.vercel.app/

This is a fully responsive and feature-rich Food Delivery Website frontend, built using TypeScript (TSX), React, and Tailwind CSS. It provides a smooth UI/UX for users to browse, order, and track their favorite meals online.

- Developed a **fully responsive Food Delivery Website** with a modern UI/UX, dark/light mode, and smooth animations using Framer Motion.
- Implemented **cart, wishlist, order tracking, and authentication UI**, enhancing user engagement and functionality.
- Optimized performance with **lazy loading, API integration (Axios), and location-based restaurant suggestions** for a seamless experience.

### Hotel Management System
📍 Lucknow, India
🔗 https://github.com/rahulpatel51/Hotel-Management-System

Built a **full-stack hotel management system** with booking, authentication, and admin management features for rooms, cabs, halls, and housekeeping.

- Developed **user and admin dashboards** with secure JWT authentication.
- Implemented **real-time booking management** with payment integration.
- Integrated **file uploads (Multer) and optimized MongoDB storage**.

## SKILLS
